Phone + 61 2 9845 7423 Fax + 61 2 9845 6316

Dear Sir/Madam,

The aims of ASSCID are:-

- To take an active role in educating the dental profession and other health care workers in the oral health needs of people with special needs.
- To be a resource centre for oral health professionals seeking information in the management of patients with special needs.
- To lobby for oral health services for people with special needs.
- To support oral health promotion targeting people with special needs.

Currently, ASSCID is establishing a mentoring program in special needs dentistry that is being sponsored by the Alzheimer's association and Colgate. ASSCID is now an affiliated association of the Australian Dental Association. All ASSCID members are now provided with membership to the International Association of Disability and Oral health. Take a look at their website (www.iadh.org) and don't miss their conference in Santos, Brazil in 2008. "Putting our hands together" a one day seminar on 21st September 2007, in Hunter Valley NSW is our first joint venture with dental therapists.

Membership to ASSCID in 2007 is \$75. Please complete the application form below to maintain your membership or initiate membership of ASSCID.

Yours Sincerely
Leda Mugayar
President
ASSCID
